

## COVID-19 PRESS RELEASE

Brussels, 16<sup>th</sup> of March 2020

CanCham BeLux, the Chamber of Commerce Canada-Belgium-Luxembourg representing three countries of about 48 million citizens, is carefully monitoring the Covid-19 sanitary crisis.

During these last days, the governments of Belgium, Luxembourg and Canada, like in other countries around the world, have implemented drastic measures to contain the coronavirus spread and end the pandemic. Many countries have already put in place mandatory quarantine measures or have closed their borders, for sure others will follow shortly.

CanCham BeLux calls for urgent coordinated official measures at national, European and international level for the implementation of intermodal strategic international corridors in order not to block the access and the logistics of goods and persons essential for maintaining the economic activities in the context of Covid-19 crisis.

CanCham BeLux considers that all mechanisms for cooperation and international aid must be used more than ever in these very difficult moments for all.

CanCham BeLux expresses its full sympathy and support to all the members and partners and invites them to stand together in the coming period.
